Download the free and secure United Through Reading App from Google Play or the Apple Store.

Set up your private United Through Reading account by authenticating through TroopID. If you already have a TroopID account, you will use your existing username/password.

Choose book(s) to read to the child(ren). You may read as many or as often as you want!

Use the link: utr.org/app-book-order-form to request books ahead of time.

Find a comfortable and quiet location to video record yourself reading the book(s) with the app.

You do not need WiFi to make the recording but will need it to upload and send the recording.

Send to yourself and/or your family. They can either login to your account or create their own.

United Through Reading will mail the same book(s) you read to the recipient for free, if you cannot hand deliver them! They will request the book(s) and submit their mailing address through a link in the email they receive with the recording.

Child(ren) can watch the recording as often as they want, feeling connected to you when they need you most!
