The Ohio Service & Honor Committee was founded to establish fund raising events to assist our Iraq and Afghanistan Disabled Veterans and current deployed families in Southwest Ohio. The committee is made up of various volunteers along with a number of Wright-Patt Air Force Base Representatives.

The State of Ohio has generated the highest percent of casualties in these wars—more than any other State in the Union. Though many of our sons, daughters, mothers and fathers have served in these difficult conflicts there has never been a formal community effort to assist them or their loved ones.

The Ohio Service & Honor Committee was formed to make sure that these cherished individuals receive the respect, honor and assistance that they deserve.
