

ALUMNI CALL TO ACTION: SUPPORT CLERGY OUTREACH

Please help cultivate a critically important untapped community resource! We seek your help engaging clergy leaders, faith-based organizations and volunteers in support of the spiritual/tangible needs of service members and their families.

We know alumni are active in their local churches and have strong relationships with clergy. We anticipate that Soldiers, and Airmen who currently serve - and Veterans - are also probably members of your church. Because of this, we respectfully ask you to champion the Ohio National Guard clergy outreach effort and invite local faith-community leaders to get involved.

Clergy can get engaged in many ways, for instance: attend clergy working group meetings, establish a military ministry and/or participate in H.E.O.R.E.S. Care as a hometown support volunteer. We especially need congregations to serve as lead churches and pilot the use of the military ministry toolkit - if you know one, please let us know.

A Partnership with H.E.R.O.E.S. Care

Homefront. Enabling. Relationships. Opportunities. Empowerment. Support.

H.E.O.R.E.S. Care supports troops and their families completely and proactively from pre-deployment and up to two years post-deployment, providing financial, job placement, family care, and mental health care services. Services are also available for troops who have never deployed. Since the Adjutant General signed the Memorandum of Understanding in Nov. 2014, service members seeking support has grown from 4 to 39. We have also received at least \$19,571 worth of donated items. We also seek your support in identifying service or family members who may be interested in receiving psychological, moral or spiritual support. **For more information visit: www.heroescare.org**
