CONNECTING TO THE COLLECTIONS

FLIGHT SUIT MORALE PATCH

The flight suit morale patch was commissioned by Det. 21, Operational Support Airlift Command (OSACOM) during a 2006-2007 mobilization to Djibouti, Africa. The patch shows an outline of Africa with a U.S. Army C-26 aircraft, the type of plane flown by the unit. The Latin phrase "Es nos illic etiamnunc" translates to "Are we there yet?". The area the crew would fly over during the mobilization was large and most of their flights were very long. When departing, the crew would frequently ask "Are we there yet?".
